

## Heavy Metal Questionnaire

Please respond to the following questions or statements in as much detail as you can. It will help me assess how much you already know about metal music and culture. You will get full credit for this assignment if you complete it, so please answer each question from your personal perspective (do not "look up" the answers). It is ok if you do not know the answer to some of the questions and it is fine to provide your best guess.

To complete the last question, you will need to listen to the following Spotify playlist: [The Origins of Metal](#).

1. Please define heavy metal music in as much detail as you can.

5. What is your opinion of heavy metal music? It is okay to not have one if you have no experience with it or have a negative one.
